
Environmental Policy

ENVIRONMENTAL POLICY

1 GENERAL POLICY STATEMENT

Concern for the environment is one of the core values of Boulting Environmental Services (B.E.S.) and this is reflected in the range of services supplied by the company.

We are specialists in the design and construction of cleanrooms, laboratories and other sophisticated critical environments wherever possible we develop energy conscious solutions which take full account of energy usage / carbon footprint.

In addition to our core business we also employ a number of low carbon energy decisions and provide a range of services to our clients including energy performance certificates, Part L compliance reports and Air Conditioning Inspections.

This level of retained knowledge and expertise helps keep environmental concerns at the forefront of our business and in general we aim to:

- Minimise waste product and utilise recycling as much as possible.
- Ensure that all forms of energy are used as efficiently as possible.
- Effectively prevent pollution of the environment.
- Ensure that both staff and clients are kept aware of environmental issues.
- Comply with all applicable environmental legislation.

B.E.S personnel shall receive such instruction and training as is necessary to allow them to constructively participate in the environmental management process, and to allow them to make their own contribution to the company's environmental objectives.

Steve Marsh - Managing Director
